In re: Gow Communications, LLC (Gow)
KGOW(AM), Bellaire, Texas
Facility Identification Number: 17389
File No. BMP-20070510AAF

Dear Mr. Friedman:

This letter is in reference to: the above captioned application filed by Gow to modify the nighttime construction permit BP-20060118ADS by changing nighttime site and pattern, and the December 8, 2008, amendment.

A preliminary review of the amended application reveals that all nine registration records have not yet been corrected to include the NAD83 center of array coordinates (29° 54' 6.8", 95° 48' 16.8") for each tower as requested in our November 24, 2008 letter.

Accordingly, further action on the subject application will be withheld for a period of thirty days from the date of this letter to provide an opportunity to file a curative electronic amendment. Failure to amend or respond with a formal request for additional time will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's Rules.

Sincerely,

Son Nguyen
Supervisory Engineer
